

Baby Bottle Guessing Game

Purchase some organic jelly beans by Surf Sweets or something sweet like Sunspire's organic chocolate covered raisins (maybe something that the mom-to-be has cravings for) and also a BPA- free baby bottle, like Green to Grow. Fill the bottle with the candy, counting them as you do so.

Ask each of your baby shower guests to “guess”timate how many pieces of candy there are in the baby bottle and write down their answer on a corner of their piece of paper or game card. The guest whose guess is closest to the total number of candies wins.
