

Hand Bag Scavenger Hunt

Each guest will most likely bring a purse, handbag or diaper bag. This game can be played in teams of three or four, depending on how many guests attend. It works best with large groups. A preprinted list with various items normally found in a woman's bag (and some items rarely found in them!) is handed out to each team.

Some examples are: the invitation to this shower, an iPod, any form of birth control, a baby picture, a library card, a used tissue or napkin, a grocery list or receipt, hand sanitizer, lip balm . . . you get the idea. The more creative you are, the more fun and interesting this game will be. You can decide that the more obscure items earn more points or that all items equal one point, it's up to you.
